

Field Trip No. 38

27/2 - 6/3/53.

Catalay & McIntosh

Western Australia

South-west

Acridids

Box 1

towards

From Perth down road to Brookton.

27 Feb. '53

Kelmscott 13630

Swamp left

Karragullen 13639

Collected at 13644.

Cirphula sp. n., *Soniaca* sp., *Exema includens*, *Macrotona* sp., *Pygostola* sp.
Dry sclerophyll forest, pretty well pure jarrah. Fairly dense understratum of shrubs about 3' high.
9 Acridids, 1 Eumastacid, 4 flies, 1 bee.

Collected at 13668

Soniaca sp., *Exema includens*, *Macrotona* sp.
Fairly open stand of wandoos on the edge of cultivated paddocks. Not much shrubs, some dried off grass.

4 Acridids, 1 fly

Collected at 13711.

[Almost impossible to describe how this locality was arrived at. However it is exactly 10 miles, S.W. of Beverley]

Pardalipena sp.
Clear farming land with a belt of eucalypts along a creek.

3 1 Acridid, 1 wasp.

The single acridid was taken, sitting on the bark of a rough-barked eucalypt, about 14 feet from the ground.

Open stand Wandoos with some mallee on a stony rise.

Box 1 (contin.)

Trip to South-West.

Perth → Albany Highway

Armadale 13844

Collected at 13879

3 March 1953

^{Peckesia brunnea, Cedaria sp.}
a slope with Jarrah and Mann (mostly Jarrah) and
^{Lonicera sp. Ixama inclumens, Macrodon sp.}
a fairly dense shrub stratum, sloping down to a
lower area with less dense shrubs and a less
dense covering of wandoo. Acridid picture about
the same in either situation.

24 Acridids

Williams 13928

Arthur 13952

turned W along Darkan Rd to 965

turned S down Bokal Siding Rd.

Coll. at 13972 approx. (have been here before)

4 wasps, 8 beetles.

4th March

14054

14052

14054

Manisuris *maulicorinis*, *Manisuris* *capitatus*, *Manisuris* *pedunculatus*
Jawohri *capitatus* *Manisuris* *capitatus* *Manisuris* *capitatus* *Manisuris* *capitatus*
Manisuris *capitatus* *Manisuris* *capitatus* *Manisuris* *capitatus* *Manisuris* *capitatus*
and *Manisuris* *capitatus* *Manisuris* *capitatus* *Manisuris* *capitatus* *Manisuris* *capitatus*
specimens of *Manisuris* *capitatus* *Manisuris* *capitatus* *Manisuris* *capitatus* *Manisuris* *capitatus*

26 *Manisuris*, 12 flies.

Manisuris 14077

Pemberton 14098.

Pemberton → Northcliffe Road to

14108.

1 fly, 2 wasps.

Box 2.

5 March 1953

Pemberton to Manjimup

Pemberton 14119

Coll. at 14121

^{Cedaria sp. Aboulayriana vittatum}
Wet sclerophyll forest. Tall Marri and Karri. Dense
shrub understratum. Acridids along road.

3 Acridids, 2 flies

From Manjimup down road to Nornalup.

Manjimup 14140

turned off Pemberton Rd. 14150

Collect at 14157.

^{Gastromargus musicus, Phaulacridium vittatum}
a dairy farm cut out of wet scler. forest (Karri and
^{Austroblechnum vulgare, Corallipes}
Marri) planted with exotic grasses. Some Bracken.

11 Acridids, 6 flies.

5 ml. N^W of Manjimup.

(No record of mileages as was in another person's car. Arrived at
loc. by going along Bridgetown Rd. for 5 ml. and turning
west for a mile or so.

A large drying swamp with green herbs growing where
mud was caked hard.

18 Acridids, 1 fly.

~~At~~ Bridgetown to Donnybrook

Bridgetown 14199

turned up Collie Rd. 14234

Coll at 14242.

6/ March 1953.

(Have collected here before)
^{Gastromargus musicus, Heteropiternis obscurus, Phaulacridium}
this time collected in a patch of reedy grass, etc. near a
^{vittatum, Macrotoma sp.}
creek.

11 Acridids, 1 wasp, 3 flies, 7 beetles.

Post 2 Continued

6 March 1953.

Bumbury to Perth.

Wokalup 14292

Collected at 14294

Psedna nana, *Mora baccastrina*, *Leptanargus*
a low area ^{occasional *Heteropternis obscurus* Ch.} not in winter. Covered with
a dense cover of wavy sedge like plants, *Xanthorrhoea*
^{*Loxocoma includens*, *Macrotoma* sp.}
Banksias, etc. Area adjoins a Ladinic area with
an ordinary Jarrah, Manni, Shrub, etc. community.

20 Acridids, 3 Eumestacids, 1 fly

Harvey 14295

Pinjarra 14330

Collected at 14333

Mora baccastrina, *Goniaca* sp., *Genus* nov. 51, *Loxocoma*
Sandy soils with *Banksias* some *Xanthorrhoeas*, a few
^{*includens*, *Psedna* *brunnea*, *Macrotoma* sp.}
Manni and a fairly plentiful stratum of
short sclerophyll. shrubs.

14 Acridids, 2 Eumestacids, 1 fly.
